THE GREAT GATSBY

Ljubljana
December 2019 – January 2020

The internationally renowned choreographer Leo Mujič, found the source material for his new choreography in the famous novel by Francis Scott Fitzgerald *The Great Gatsby*. The distinguished work from the treasury of the classical American literature exposes in a highly critical tone the negative dimensions of the great American dream and the rigidity of the decadent high society circles in New York between the two world wars that did not allow transitions between social classes. The lavish narrative of a mysterious, rich man who becomes a victim of his own love and beliefs is also a story about the lovers who are not destined to be together. ICE SCULPTURES/ICE LAND

Ljubljana
December 2019 - January 2020

In its sixth season the Land of Ice is coming to the very heart of the capital, to Kongresni trg in Ljubljana. In an inclosed space of 150 square meters, cooled down to - 5o C, you will be able to see sculptures made out of 60 tons of ice. The Land of Ice 2019/2020 is based off of a book *Dragons on the way* by Niko Kupper. The well-known author of children's books takes us on a journey across Slovenia through the story about the Klagenfurt dragon that magically comes to life. Of course, part of the story takes place in Ljubljana, a city that has lived under the sign of the dragon for centuries. Further information: www.ledena-dezela.com
